AGENCIES

FEATURES

AMBIENT INTELLIGENCE

Transcribes patient-physician conversations in real time and integrates with HER/EMR, allowing clinicians to focus on patient interactions.

AI-POWERED DIAGNOSTIC SUPPORT

Real-time transcription and analysis of patient-doctor conversations, allowing clinicians to focus on patient interactions.

SMART TREATMENT PLANNING

Provides evidence-based recommendations and does instant drug interaction checks to support informed treatment decisions.

SYSTEM INTEGRATION

Works harmoniously with existing healthcare systems, ensuring smooth data flow and workflow efficiency.

SECURE DATA SHARING

Securely shares patient data across healthcare teams with role-based access control.

EFFICIENT PRACTICE MANAGEMENT

Reduces administrative work through automated documentation and improved coding accuracy for better reimbursement rates.
